Crafting the Ideal OT Note OT practitioners spend lots of time on documentation. Our notes help us track patients' progress, communicate with other healthcare providers, and defend our rationale for our treatment choices. Documentation is a key factor in our patients' well-being during their continuum of care.

Crafting the Ideal OT Note — OT Potential

Documentation The two most important PT/OT documentation requirements are demonstrating that care is (1) medically necessary and (2) skilled. Care is regarded as "skilled" only if it is at a level of complexity and sophistication that requires the services of a therapist or an assistant supervised by a therapist.

Especially in my world of documentation, the thing that we're we really want is to see the skilled care that he did that day. And you don't have to write big paragraphs to do it. You can simply write: Increased weight by 3 pounds because of muscle fatigue or changed from a compliant to a non-compliant surface.

PT, OT, And SLP Tips On Point Of Service Documentation

Last modified on October 24, 2019 by Tim Fraticelli DPT, MBA Physical therapy documentation is an important tool for tracking patient progress with the treatments provided in therapy. It can also be the source of major headaches, rushed lunch hours, and hours of typing throughout the day.
