Perhaps the most disturbing view of all is that the biggest threat we face is not from ever more intelligent machines, but rather from the increasing extent to which we are passing control of so many aspects of our lives to computerized systems. The financial crash of 2008 was one of many symptoms of this

# Download Ebook What To Think About Machines That Think Today's Leading Thinkers On The Age Of Machine Intelligence

“What do you think about machines that think?” There are a lot of good responses, and some predictably inane ones. Daniel Dennett gives a good write up on why the Singularity is overblown, and points out something that I’ve said myself, that the real danger isn’t artificial intelligence, but artificial stupidity.
